2026 Lakeshore Cleanup Results

*Message from the
Lakeshore Cleanup
Committee*

During the annual Lakeshore Cleanup this year, a total of just over 3 tons of trash was collected and properly disposed of, leaving our lake's shoreline significantly better looking.

Thank you again for the enthusiastic participation of TVRA, and we look forward to seeing your group again next year.

*Tom Ringenbach
Committee Chairman*

VOLUNTEERS NEEDED NOW!

WHY VOLUNTEER?

Because it's a great way to connect, contribute, and shape what happens here—with a supportive team behind you every step of the way.

We're looking to fill these roles soon—jump in now!

TREASURER (Board Position)

Step into a key leadership role as a voting member of the TVRA Board of Directors. You'll partner with an experienced volunteer, so you're not flying solo.

PROMOTIONS

Want the most fun job in the room?

Be the person who selects and gives away awesome prizes at our Monthly Socials. It's easy, upbeat, and a great way to meet everyone.

Interested or curious? Reach out today and let's find your perfect fit. Your community needs you—and we'd love to have you on the team.

MESSAGE FROM THE PRESIDENT

by *Linda Garza*

BE ENGAGED

Last month, TVRA Program VP Kally Barker hosted our first Open Village Meeting (OVM) of the year, “The State of Monroe County.” Thanks to the strong support of Kahite members and residents, we had a full house. Presentations from Monroe County representatives—Mayor Mitch Ingram, Sheriff Tommy Jones, and Hopewell Fire Department’s Zac Perry—along with updates from POA Board members, staff, and committee representatives (Ed Grollemond, Matt Benoit, and Greg Seigworth), provided valuable insight into past accomplishments, anticipated growth, and future initiatives designed to enhance our community.

Please mark your calendars for our next OVM, “The State of Loudon County,” on Wednesday, June 3, from 4:00–5:30 PM at the Yacht Club. As with all OVMs, all Tellico Village residents are encouraged to attend. Due to limited seating, Tellico Village Network (TVN) will live stream and record the meeting.

In April, TVRA’s A&E Committee hosted two well-received events, The Extraordinary Caterpillar and TN Smart Yard. Back by popular demand, the team will host a Flutter and Glow event on Tuesday, May 19—an experience sure to delight gardeners and nature enthusiasts alike.

With nearly 50 events scheduled in May and June, TVRA truly offers something for everyone. Our Sunshine Social on Monday, June 8 is one you won’t want to miss. Be sure to sign up today.

Join us on Tuesday, May 12 for our monthly Social to learn about upcoming events. During the gathering, we will also recognize Scott Macrae for his ongoing support in providing TVRA members with updates on the POA’s Tanasi Rebuild and water/sewer infrastructure projects.

BE HEARD

In last month’s newsletter, TVRA encouraged members to participate in the Tellico Village Property Owners Association (POA) Balanced Scorecard surveys. These surveys provide valuable feedback on POA services and will play an important role in informing the new Interim General Manager. Please continue to share your experiences—both positive feedback and opportunities for improvement.

Surveys are just one way to engage. Attendance and participation in monthly Town Hall and POA Board meetings are equally important. These meetings are typically scheduled with the Town Hall occurring on the Monday prior to the Board meeting, which is held on the third Wednesday of each month. Both meetings are live-streamed and recorded for your convenience.

Questions or concerns may be submitted through the Board Contact Form on the POA Residents website.

A special thank you to everyone who participated in TVRA’s April survey. Results can be found in the Survey Says section of this month’s newsletter.

(continued)

BE INFORMED

The TVPOA Board currently has several initiatives underway aimed at strengthening our community. These include:

- The Balanced Scorecard (BSC)
- Final approval to designate TVPOA as a “Utility District”
- Selection of a search firm and Interim Executive Leader (IEL) to guide the search for a permanent General Manager
- Neighborhood pump station upgrades
- Enhancements to the POA’s Preventative Maintenance Management (PMM) plan
- And more

While some approaches have generated mixed feedback, it is important to remain focused on long-term outcomes. Costs, resource impacts, and overall benefits should continue to be evaluated carefully. Staying informed—by attending or viewing POA meetings—is key. Together, informed and engaged residents can achieve meaningful results.

SUMMER BOATING SEASON

Spring has arrived, and we’re already experiencing summer-like temperatures. While the air is warming up, lake water temperatures remain in the 50s to low 60s—still a bit chilly for many of us.

May is the perfect time to prepare your watercraft for the upcoming boating season and to refresh your knowledge of Tennessee boating laws and safe navigation on Tellico Lake. If you haven’t already, TVRA encourages boaters—especially those new to the water—to consider taking one of the excellent courses offered by the U.S. Coast Guard Auxiliary (CGAUX) through TellicoLife. You can also pick up *The Handbook of Tennessee Boating Laws and Responsibilities* at the POA Welcome Center or Chota Recreation Center.

Let’s all do our part to ensure the safety of our residents while enjoying our beautiful lake. And remember, whether you own a boat or not, TVRA offers a wide variety of events that everyone can enjoy.

TVRA VOLUNTEERS

Our organization thrives because of dedicated volunteers who support our mission. We currently have two openings:

- Treasurer – A shared role responsible for preparing monthly financial reports, processing payments, and managing reimbursements. We are improving processes to streamline the workload and make this role more efficient.
- Promotions Chair – Works with the Social VP and local businesses to secure prizes for monthly socials and events, creating value for both members and community partners.
- If you would like more information, please email us at: Contact@TVResidents.org

On behalf of the TVRA Board, thank you for your continued support. We look forward to seeing you at an upcoming event.

Kind regards,
Linda

This Mother's Day, we celebrate all who nurture, support, and care for others—mothers, grandmothers, mentors, and friends. Thank you for the kindness and strength you bring to our community every day. Our community is stronger because of the care, compassion, and encouragement so many of you share. This Mother's Day, we celebrate those everyday acts that make this such a special place to call home.

HOW SCAMMERS WORK – Protect Yourself from Payment, Check, and Charity Scams *by Terry Thompson, VP of Technology*

Scammers are getting more and more convincing. They advertise on social media and marketplaces, offer unusually low prices, impersonate trusted organizations, and use urgent or emotional tactics to make you act before you think. Below are common scams, red flags, and practical protections.

Marketplace & Payment Scams

What Happens?

- Scammers list items on marketplaces or social platforms and ask buyers to pay using Zelle, wire transfer, cashier's check, gift cards, cryptocurrency, or other P2P methods. Once paid, the seller disappears.

Red Flags

- Requests to pay with Zelle, wire, gift cards, or crypto from strangers
- Pressure to pay immediately or off platform
- Prices far below market value

What to do

- Use platform-native payment systems or a credit card with fraud protection
- Treat Zelle and similar P2P services like cash – use only with people or businesses you know and trust
- Verify seller ratings; ask for extra photos or receipts
- If meeting in person, choose a public, well-lit location

Caller ID, Email, Text, and Remote - Access Scams

What Happens?

- Scammers spoof caller ID, send phishing emails/texts, or display fake “virus” alerts to get account details or remote access to your device.

Red Flags

- Unsolicited calls/messages claiming a problem with your bank, computer, or a purchase
- Urgent threats to close your account unless you act now
- Unexpected prompts to install software or provide remote-access codes

(continued)

What to do

- End the call or delete the message; contact the company directly using a trusted phone number or website
- Never provide one-time passwords, verification codes, or remote-access credentials to someone who calls you
- Don't click links in suspicious emails or pop-ups; run antivirus scans and keep systems up to date

Check Fraud and Mail Theft

What Happens?

- Scammers steal checks from mailboxes or intercept mailed checks, chemically wash and rewrite checks, or replicate check information to create counterfeit checks.

Red Flags

- Missing mailed bills or refunds
- Unexpected transactions or withdrawals on your account

What to do

- Mail checks from inside a post office rather than curbside or blue postal boxes
- Use permanent ink; write the payee and amount without gaps and draw a line through unused spaces
- Shred documents with personal information before disposal
- Monitor bank and credit card statements frequently and report suspicious activity immediately

Charity & Crowdfunding Scams

What Happens?

- Fraudsters impersonate legitimate charities, create fake crowdfunding pages, or send emotional appeals to push donations

Red Flags

- Unsolicited donation requests via phone, text, or social media
- Pressure to donate immediately or requests for gift cards/crypto payments
- Poorly designed or unfamiliar charity websites

What to do

- Verify charities via their official website; search the charity's name plus "scam" or check Charity Navigator/GuideStar
- If contacted unexpectedly, say you'll call back and use the official phone number on the charity's site
- Donate by credit card or through reputable platforms that offer donor protection

If You've Been Targeted or Scammed

- Contact your bank or payment provider immediately to try to stop or reverse the transaction
- Report the scam to the Federal Trade Commission: <https://reportfraud.ftc.gov> and to local police
- If identity or checks were compromised, place fraud alerts or freezes with credit bureaus and review accounts closely

Quick Safety Checklist

- Verify sellers; use platform payments or credit cards
- Treat P2P payments (Zelle, Venmo, Cash App) like cash
- Never give remote access, one-time codes, or verification to callers
- Don't buy gift cards to pay anyone who demands them
- Shred paperwork with personal information
- Monitor accounts and report suspicious activity promptly

Resources

- Report scams to the FTC: <https://reportfraud.ftc.gov>
- Charity checks: Charity Navigator <https://www.charitynavigator.org>, GuideStar <https://www.guidestar.org>
- Postal mail theft: U.S. Postal Inspection Service <https://www.usps.gov>

Tennessee Smart Yards Program Highlighted at TVRA Event

by Lynda Parker, A&E Chair, and Dave Flanagan, WATeR President

On Thursday, April 23, the Tellico Village Residents Association (TVRA) welcomed Andrea Ludwig of the University of Tennessee Agricultural Extension to speak about the Tennessee Smart Yards Program. The presentation was held at the Tellico Village Yacht Club.

The event was organized by Lynda Parker, Chair of the TVRA Architectural and Environment Committee. Lynda noted that the committee is committed to bringing educational opportunities to Tellico Village residents that will help improve the microenvironment of each homeowner's garden and surrounding landscape.

The Tennessee Smart Yards Program, offered through UT Extension, encourages homeowners to adopt environmentally friendly landscaping practices that support local ecosystems, reduce chemical use, and conserve water — all while maintaining attractive yards and outdoor spaces.

"When homeowners embrace programs like Tennessee Smart Yards, we all benefit," said David Flanagan, President of WATeR. "These efforts help protect the water quality of Tellico Lake and, in turn, support the property values that make our community such a desirable place to live."

Residents interested in learning more about the Tennessee Smart Yards Program can visit

<https://tnyards.utk.edu/>

A Gentle Reminder: DRIVING GOLF CARTS IN TELLICO VILLAGE

by Kahite resident Deb Marshall, Member of POA Highway Advisory Committee

With the main Tellico Village community population and the Kahite buildout, there is a noticeable increase in the use of personal golf carts not only on our 3 golf courses, but use in our neighborhoods for travel to neighbor homes, neighborhood gatherings, restaurants and club pubs, and spring, summer, and fall rides outside in the evenings to take in the beauty of our neighborhoods and golf courses.

Considering that, please remember to follow the following restrictions or laws, as well as local usage and safety considerations.

TN Restrictions & Laws:

Traditional golf carts are not street legal in the State of Tennessee.

- Tennessee law defines a “golf cart” as a motor vehicle that is designed and manufactured for operation on a golf course for sporting or recreational purposes, equipped with safety belts installed for use in the left front and right front seats, and that is not capable of exceeding speeds of twenty miles per hour (20 mph).
- Golf carts are not able to be titled or registered for use on roads, including neighborhood streets.
- When driving a golf cart on a golf course, drivers must be at least 16 years of age and have a valid driver’s license or instruction permit.

There is a difference between a traditional golf cart, low speed vehicle (LSV), and medium speed vehicle (MSV). [See pictures below]

- As opposed to a traditional golf cart, LSVs and MSVs are equipped with specialized safety equipment such as parking brakes, additional mirrors, turn signals, etc. They also must have a Vehicle Identification Number, a license plate displayed, and proof of insurance.
- An “LSV” is defined as any four-wheeled electric or gasoline vehicle, excluding traditional golf carts, whose top speed is greater than twenty miles per hour (20 mph) but not greater than twenty-five miles per hour (25 mph).
- A “MSV” is defined as any four-wheeled electric or gasoline-powered vehicle, excluding traditional golf carts, whose top speed is greater than thirty miles per hour (30 mph), but not greater than thirty-five miles per hour (35 mph).

An LSV or MSV can be driven on some roads.

- These vehicles must be titled and registered. An LSV may only be driven on roads that have a posted speed limit of 35 mph or less. An MSV vehicle may be driven on roads that have a posted speed limit of 40 mph or less. Drivers must have a valid driver's license to operate the vehicle.
- LSVs and MSVs may have a similar appearance to golf carts but have been titled and registered for road use as either LSVs or MSVs. They must meet all the safety equipment requirements of the State of Tennessee and must be driven by a licensed driver. Any golf cart that is not registered as a LSV or MSV may not operate on the road.
- Traditional golf carts can be modified, but they must meet all low or medium speed vehicle requirements to allow them to be titled and registered.
- LSVs and MSVs can cross highways, but only at designated intersections and must obey all traffic laws. LSVs and MSVs are permitted on roads with speed limits of 35 mph or less but can only cross at roads with higher speed limits at intersections.
- Provided they stick to the required speed limits, LSVs/MSVs are permitted on public roads. However, they're prohibited from highways, interstates, and other major roadways with fast-moving traffic.
- Traditional golf carts, LSVs, and MSVs are also prohibited from sidewalks.
- Specific crossing points (like bridges or underpasses) might be designated, and should be followed.

(continued)

GOLF CART

SLOW SPEED VEHICLE

There are driver restrictions on driving all carts on the road.

- Only individuals over the age of 16 with a valid driver's license are allowed to drive LSVs and MSVs on the road. This includes all neighborhood roads.
- In general, a 13-year-old cannot legally drive a golf cart on public roads or in a neighborhood in Tennessee. Tennessee state law requires drivers to be at least 16 years old. Some municipalities, like Knoxville, may have stricter age requirements of 18 years or older.
- Additionally, if the golf cart is classified as a low or medium-speed vehicle, a driver's license is necessary.

The following are additional applicable laws.

- All traffic laws and regulations apply to these vehicles. This includes all laws and criminal penalties related to driving under the influence of alcohol or drugs, speed, or traffic signs.

Who should I contact if I see unlawful driving activity?

If you believe a driver is in danger or at risk of putting others in danger, call 911. If you see unlawful driving activity, contact the Loudon Police Department's non-emergency line at (865) 458-9081, or Monroe County's non-emergency line at (423) 442-3911.

Local Usage Courtesy & Safety:

- Golfers using the course are always the priority users of the cart paths during the time that the course is open.
- Driving under the influence – not a good idea for you or others. Better to wait until the 19th hole to consume alcohol.
- Follow “golf path only” and “no carts beyond this point” restrictions to protect the course and help to minimize course repair, upkeep, and maintenance.
- Your cooperation in not speeding or abruptly applying brakes when driving carts, especially in wet conditions, is greatly appreciated for the same reasons.
- If you want to use your neighbor's yard as a shortcut to a community home or destination on a regular basis, be courteous and ask their permission.
- During the summertime, vacationing grandchildren will be asking and eager to drive their grandparent's golf cart. Remember that a golf cart is a large machine to operate for a child. They can lose control easily and accidents happen quickly. Please wait until they are 16 to drive the cart to avoid serious and/or non-serious injuries to anyone, especially the grandchild.

SURVEY SAYS

by Linda Garza, President

TVRA April Survey Responses:

Building on the strong response we received from our March survey, we took the next steps to better understand what matters most to you. April's survey questions took a deeper dive into March's survey results, which indicated your top priorities for ensuring the long-term success of our community are:

- 59.6% – Affordability (POA dues, amenity & service fees)
- 55.1% – Water & Sewer Infrastructure
- 38.2% – Financial Security and Aesthetics & Environment (tie)

April's Top 3 Survey Results by Category:

Affordability: In the category of affordability, the top 3 results indicate:

- 60% – Keeping amenity fees affordable (golf, wellness center, etc.)
- 54.7% – Value received for the cost of dues and fees
- 52.6% – Ensuring services fees remain affordable (utilities, maintenance, etc.)

Water/Sewer Infrastructure: When asked, "Which water and sewer infrastructure concerns are most important to you? (Select up to 3)", you told us:

- 74.7% – Aging infrastructure and need for repairs or replacement
- 73.7% – Reliability of water supply (consistent pressure, no interruptions)
- 64.2% – Cost of maintaining and upgrading infrastructure

Financial Security: You told us the top 3 priorities associated with financial security are:

- 60% – Responsible budgeting and spending by POA leadership
- 58.9% – Long term financial planning for major infrastructure needs
- 47.4% – Protecting property values

A&E: Since financial security and A&E tied for 3rd place in March's survey, we included A&E in April's survey questions as well. You told us the following A&E topics are your top 3 priorities:

- 76.8% – Preservation of natural beauty (trees, lake, green spaces)
- 55.8% – Environmental protection (water quality, wildlife, conservation)
- 53.7% – Managing overdevelopment & preserving open space

POA Leadership: When asked, "Based on your responses in this survey, which statement best reflects your level of confidence in current POA leadership (Board and staff) to address these concerns? (Select one)"

- 57.9% – I believe POA leadership has made progress, but key concerns still lack clear direction or commitment.
- 22.1% – I am confident that POA leadership is well prepared to address the concerns identified.
- 20% – I'm concerned these issues may not be addressed, impacting the long-term quality and reputation of the community.

TVRA Membership value: What are your primary reasons for being a TVRA member?

- 73.1% – I value the newsletter and community updates
- 64.5% – I trust TVRA to address important topics affecting resident
- 62.4% – I enjoy TVRA social events and gatherings

(continued)

Of the 986 members who reviewed April's online newsletter, 9.6% participated in the survey, resulting in 95 responses. While slightly below the typical 10–20% benchmark for survey response rates, this level of engagement is consistent with industry norms for newsletter-based surveys. These responses provide valuable insight into member priorities and help guide our ongoing efforts.

We would like to thank everyone who participated and recognize Stacy McMillan as our Q1 winner for survey participation. Stacy will be provided a \$25 gift card for her time and participation in our March TVRA Survey.
